

Hello Waters!

My name is Sandra Carlson and I am the administrator in charge at Waters School while your LSC conducts the search and selection of a new principal. I am a retired principal who served 15 years at Gray Elementary School and subsequently as an administrator in charge in five different schools. I am quite familiar with CPS having been a student, teacher and administrator within the school system.

I look forward to meeting parents, students and staff as the summer comes to a close and the new school year begins. Please feel free to stop by the office and introduce yourself.
