

SUGGESTIONS FOR THE TREATMENT OF HEAD LICE:

1. Remove clothing of the person to be treated.
2. Shampoo hair according to shampoo label's directions.
3. Remove nits from hair using a special comb designed specifically for nit removal and follow directions included with shampoo.
4. Wash all clothing, linens, and personal items of the infected person in hot water (130 degrees F).
5. Soak combs and brushes in lice shampoo or in hot water (130 degrees F) for 10 minutes.
6. Non-washable items such as stuffed animals, hats, and coats should be placed in a plastic bag and sealed tightly for 10-14 days. After 10-14 days, take bag outdoors and remove items, being sure to shake them well to remove dead lice and/or eggs.
7. Upholstered furniture, carpeting, and mattresses should be vacuumed.
8. Be sure to re-treat hair and scalp with shampoo at the prescribed interval after the first treatment.
